Retractabel arm lift - VL

**Skip Loader VL is the latest development within our skip loader range. We have concentrated on improving the weight, build height, flexibility, speed and safety.**

### Retractabel arm lift -VL

- 12, 14 and 18 metric tons lifting capacity.
- Adapted for 2, 3 and 4-axle chassis.
- Robust design for increased strength and long life.
- Extensive option range designed for just your requirements.
- Electronic pneumatic cab operation with 2 metre cable for lift and tip hook functions.
- Radio controlled with 2 speeds, one-handed operation, emergency stop and holder with integrated charger available as an option.
- Prepared for Cameleont swap system.
- Apart of our construction concept FBS, which comprises corrosion-resistant products (ready-painted during assembly). FBS also gives shorter lead times.
- As a customer you benefit through many years of profitable ownership.

*Our products have always promoted safety and user friendliness. The skip loader include numerous parts and components that increase safety for the driver and facilitate operation.*
